

Powder Coated Finish

All Hi-Level Mezzanine Ltd staircases, handrail posts and tubes, steel kickplates and pallet gates, are finished with high quality powder coating as standard.

Powder coating provides high corrosion resistance, optimum mechanical properties and excellent gloss retention.

Available in a wide range of colours, Hi-Level's powder coated ancillaries ensure that your new mezzanine can reflect your corporate colour scheme.

All beams, columns and landing frames will be finished in graphite grey full gloss paint as standard (other colours are available on request).
